

Future activities for RAPP

Work Plan/Road Map for 2018 and beyond including:

- Improvement & development of the **RAPP Map**
- Continuation & expansion of **field validation** campaigns: global methods?
Other countries to be included?
- Kenya (ILRI) new pilot site
- **Early Warning System for Rangelands?** Regular/monthly inputs from pilot sites (RAPP community) to the existing EW4CM...
- R&D activities: **Pasture quality** product from S2/S3/hyperspectral and **Modelling** (linkages with climate, CO2 emissions, animal health)
- **ESA support for projects on S1/S2 biomass estimation** (global – test first at pilot sites) ?
- **UNSDGs: how to support the process? Data cube application?**
- **Commercial sector's involvement** (agribusinesses, insurance?)
- **Global coordination & Outreach: call for additional co-leads in Americas and Europe?**
